Tea Menu

Tea was discovered in china 4,700 years ago. The favorite legend involved a chinese emperor who lived in about 2750 b.C. Shen Nung was known as the divine healer because of his discoveries concerning the medicinal qualities of plants & herbs and in matters of hygiene.

One day he was boiling his drinking water when leaves from an over hanging branch fell into the pot. A mysterious yet satisfying aroma arose in the steam. Shen nung quickly poured himself a dish of the liquid and found it wonderfully refreshing. Thus the story goes, tea was born.

"Better to be deprived of food for three days, than tea for one"

-ancient proverb-
